GAME AN ATTRACTION IN ALBERTA

Alberta is 255,000 square miles in area. Open prairie in the south merges into the foothills and Rocky Mountains of the west, a central parkland area and the wooded north provide choices of terrain which foster several varieties of big and small game.
National Parks and game preserves provide ample breeding grounds for all species of native big game and the overflow from these inviolate sanctuaries ensures a continuous game population in adjoining territories. Big game includes big horned sheep, mountain goat, woodland caribou, elk, deer, moose, grizzly and black bear and antelope. Nature has generously endowed Alberta with breeding and feeding places for migratory and indigenous game birds. For particulars, write to the Alberta Travel Bureau, Legislative Building, Edmonton, Alberta.

SPORT FISHING

Alberta is a paradise for those who carry rod and reel. Almost every mountain stream is a trout stream, the main species being Dolly Varden, rainbow and cutthroat trout, grayling and Rocky Mountain whitefish. Eastern brook or speckled trout has also been planted in many waters. Many lakes are well stocked with pike, whitefish, lake trout and other fish.
Lakes and streams in the National Parks are stocked with good eating sport fish from hatcheries at Jasper and Banff. Information about license fees, creel limits and closed waters should be obtained from the superintendent's office in the respective parks.

TOURIST CAMPS

The Government of the Province of Alberta has set forth a standard of tourist camp accommodations by Ministerial Order and they are licensed by the Department of Industry and Labour. This order assures visitors travelling by automobile in Alberta, of a uniform standard of accommodation, maintained to specifications for the comfort and convenience of visitors.
The following is a condensation of cabin ratings:
Class "A" — Cabins on concrete or stone foundations. All rooms completely furnished — living room with lounge or chaise longue, table, rug, curtains, etc. Bedrooms with bedstead, grade "A" spring and mattress, complete bedding, etc. Bathroom with modern plumbing, including toilet, bath or shower, basin and mirror. Kitchen containing stove, sink, refrigerator, quality dishes, utensils, towels, cutlery, table, chairs, etc., except where eating facilities are conveniently available. Hot and cold water plumbing.
Class "B" — Same as Class "A", but without bath or shower, and refrigerator.
Class "C" — Same as Class "B", with exception of sewer or water utilities in cabin.
Class "D" — Any approved tourist cabin not in Class "A", "B" or "C".

SUPERVISION

Every tourist camp shall have at least one competent attendant or caretaker whose duty it shall be to maintain the camp, its facilities and equipment in good repair and appearance and in a clean, orderly and sanitary condition. He shall register every guest lodging in cabins. Such record, which shall be available for inspection by any person authorized by the Minister of Industry and Labour, shall include the name and address of each and every person, the license number, the name of province of origin of each car, and the cabin to which each person or party is assigned.
